

NAFFA Wellness Recovery and Re-Entry Modalities

Spiritual, Emotional/Mental, Social, & Physical Wellness

Innovative

Surviving isn't living! We want participants to learn to love life and love living! Our goal is to lead them back to a strong relationship with their family and with the Creator.

Enriching

Our method is to uplift, encourage, assist, and teach. Participants learn to develop the courage needed to make real and lasting change.

Culturally-based

NAFFA's modalities connect participants to their rich heritage and strengthen their relationship with the Creator.

Treatment Program

Throughout the 17 sessions, participants gain the knowledge and skills to reintegrate into their families, the workplace, and society. Participants gain spiritual, emotional, social, and physical resilience to support them on their path to hope and healing.

Treatment Modality is agency owned once purchased.
